---

**SKILLS:** JAVASCRIPT, NODE.JS REACT, HTML, MATERIALUI, EXPRESS, BOOTSTRAP.

## PROJECTS:

**MusicAppClone:** This application is written in Pure HTML and CSS. I built this application for a fun project only. Here is the **link:** <https://github.com/unknownBalak/absenteelist>

**Absentees List:** This was my first project written in JavaScript. I built this to help my teacher. They were struggling to take attendance of students in online classes. Here is the **Link:** <https://unknownbalak.github.io/musicAppClone/index.html>.

---

## Work Experience:

**Class Representative (10/01/2019 to Now):**

### Task:

- I was Class Representative for my class. I had to help my classmates to figure out solutions to the problem.
- I had to host a meeting if any guest is coming to give a presentation to the BSc department.

### Frontend Developer:

**Lernov, the Learning Platform**

**10/08/2020 to 15/10/2020**

This STARTUP was in its beginning phase. So, they wanted to develop a website for their startup. I was hired as an intern there to do the same.

### Task:

- I was responsible for designing and developing a web Application.
  - I used REACT, JS, HTML, CSS and Material UI to develop the website.
- 

## EDUCATION:

- **Bachelor's degree:** I am pursuing my Bachelor in Maths, Statistics & CS. This is my last year. My College life was quite amazing. My overall grade is **8.5CGPA**. And College environment are amazing.
- **12th:** I did my 10+2 from D.A.V P. G college from Bihar.
